LISTING DISTRIBUTION

Building your online presence

Improve listing consistency across more than 300 sites.

Listing Distribution submits your business listing to the four major data providers: Factual, Acxiom, Infogroup, and Neustar (Localeze). Together, these data providers are referenced by over 300 online listing directories.

Optimize your listings for three factors that impact local search rank: the number of online citations, the popularity of sources they appear on, and the accuracy and consistency of listing information.

Simply activate your Listing Distribution, and watch as your listings improve over time.

Monitor, manage, and build your online reputation today!
